POWER SUPPLIES

SMARTPOWER
SOLUTION SERIES

The Newest SmartPower Family.

No single component exceeds the power supply as an accurate barometer of computer system dependability. For over 15 years, Antec has been the name professionals rely on for their power supplies. Antec Solution Series power supplies feature SmartPower: an onboard temperature sensor that regulates the fan speed so as the temperature rises the fan's RPM increases. SmartPower power supplies run as much as 40% cooler and 80% quieter than standard power supplies. All have FCC Class B, UL, CE, NEMKO, CB & TUV certifications.

SL350 Blue

SL450, SL400, SL350

SL300S

Special Features:

- ATX12V compliant, for AMD™ and Intel® systems.
- SmartPower runs cooler and quieter.
- Active PFC (Power Factor Correction) - environmentally friendlier.
- ATX Size -15(L) x14(W) x 8.6(H) cm
- Aux power connector and +12V connector for wide motherboard compatibility.
- MTBF 50,000 hrs.
- Approvals: UL, CE, TUV, FCC Class B, CB, IVEMKO.
- AQ3 - Antec Quality three year parts & labor warranty.
